

Part No.: TSHMMXXUHS
Description: HDMI Ultra Hi Speed 2.1 M-M (8K@60Hz&4K@120Hz)+Ethernet 30AWG

Description

This Ultra High-Speed HDMI 2.1 cable supports resolutions of 8K@60Hz (7680x4320) and 4K@120Hz (3840x2160). The latest HDMI Standard (2.1) supports bandwidth upto 48Gbps. They are backwards compatible with all preceding HDMI standards. HDMI technology is the global standard for connecting high-definition equipment. HDMI is the intelligent, all-digital interface used by most of the worlds largest consumer electronics, PC and mobile device manufactures. HDMI is backwards compatible with DVI, so you can use a converter/adaptor to view video on a DVI device.

Specification

Connector: HDMI Male - Gold Plated Shell and Pin with Red Insulation for 0.5m-3m and Black insulation for 5m
